Vassiliou Makedonos Residence represents a significant investment opportunity. It is a multi-level apartment building located in the heart of Limassol, very close to the university campus and a short walk to Limassol's business and shopping district, the seafront and the new marina complex.

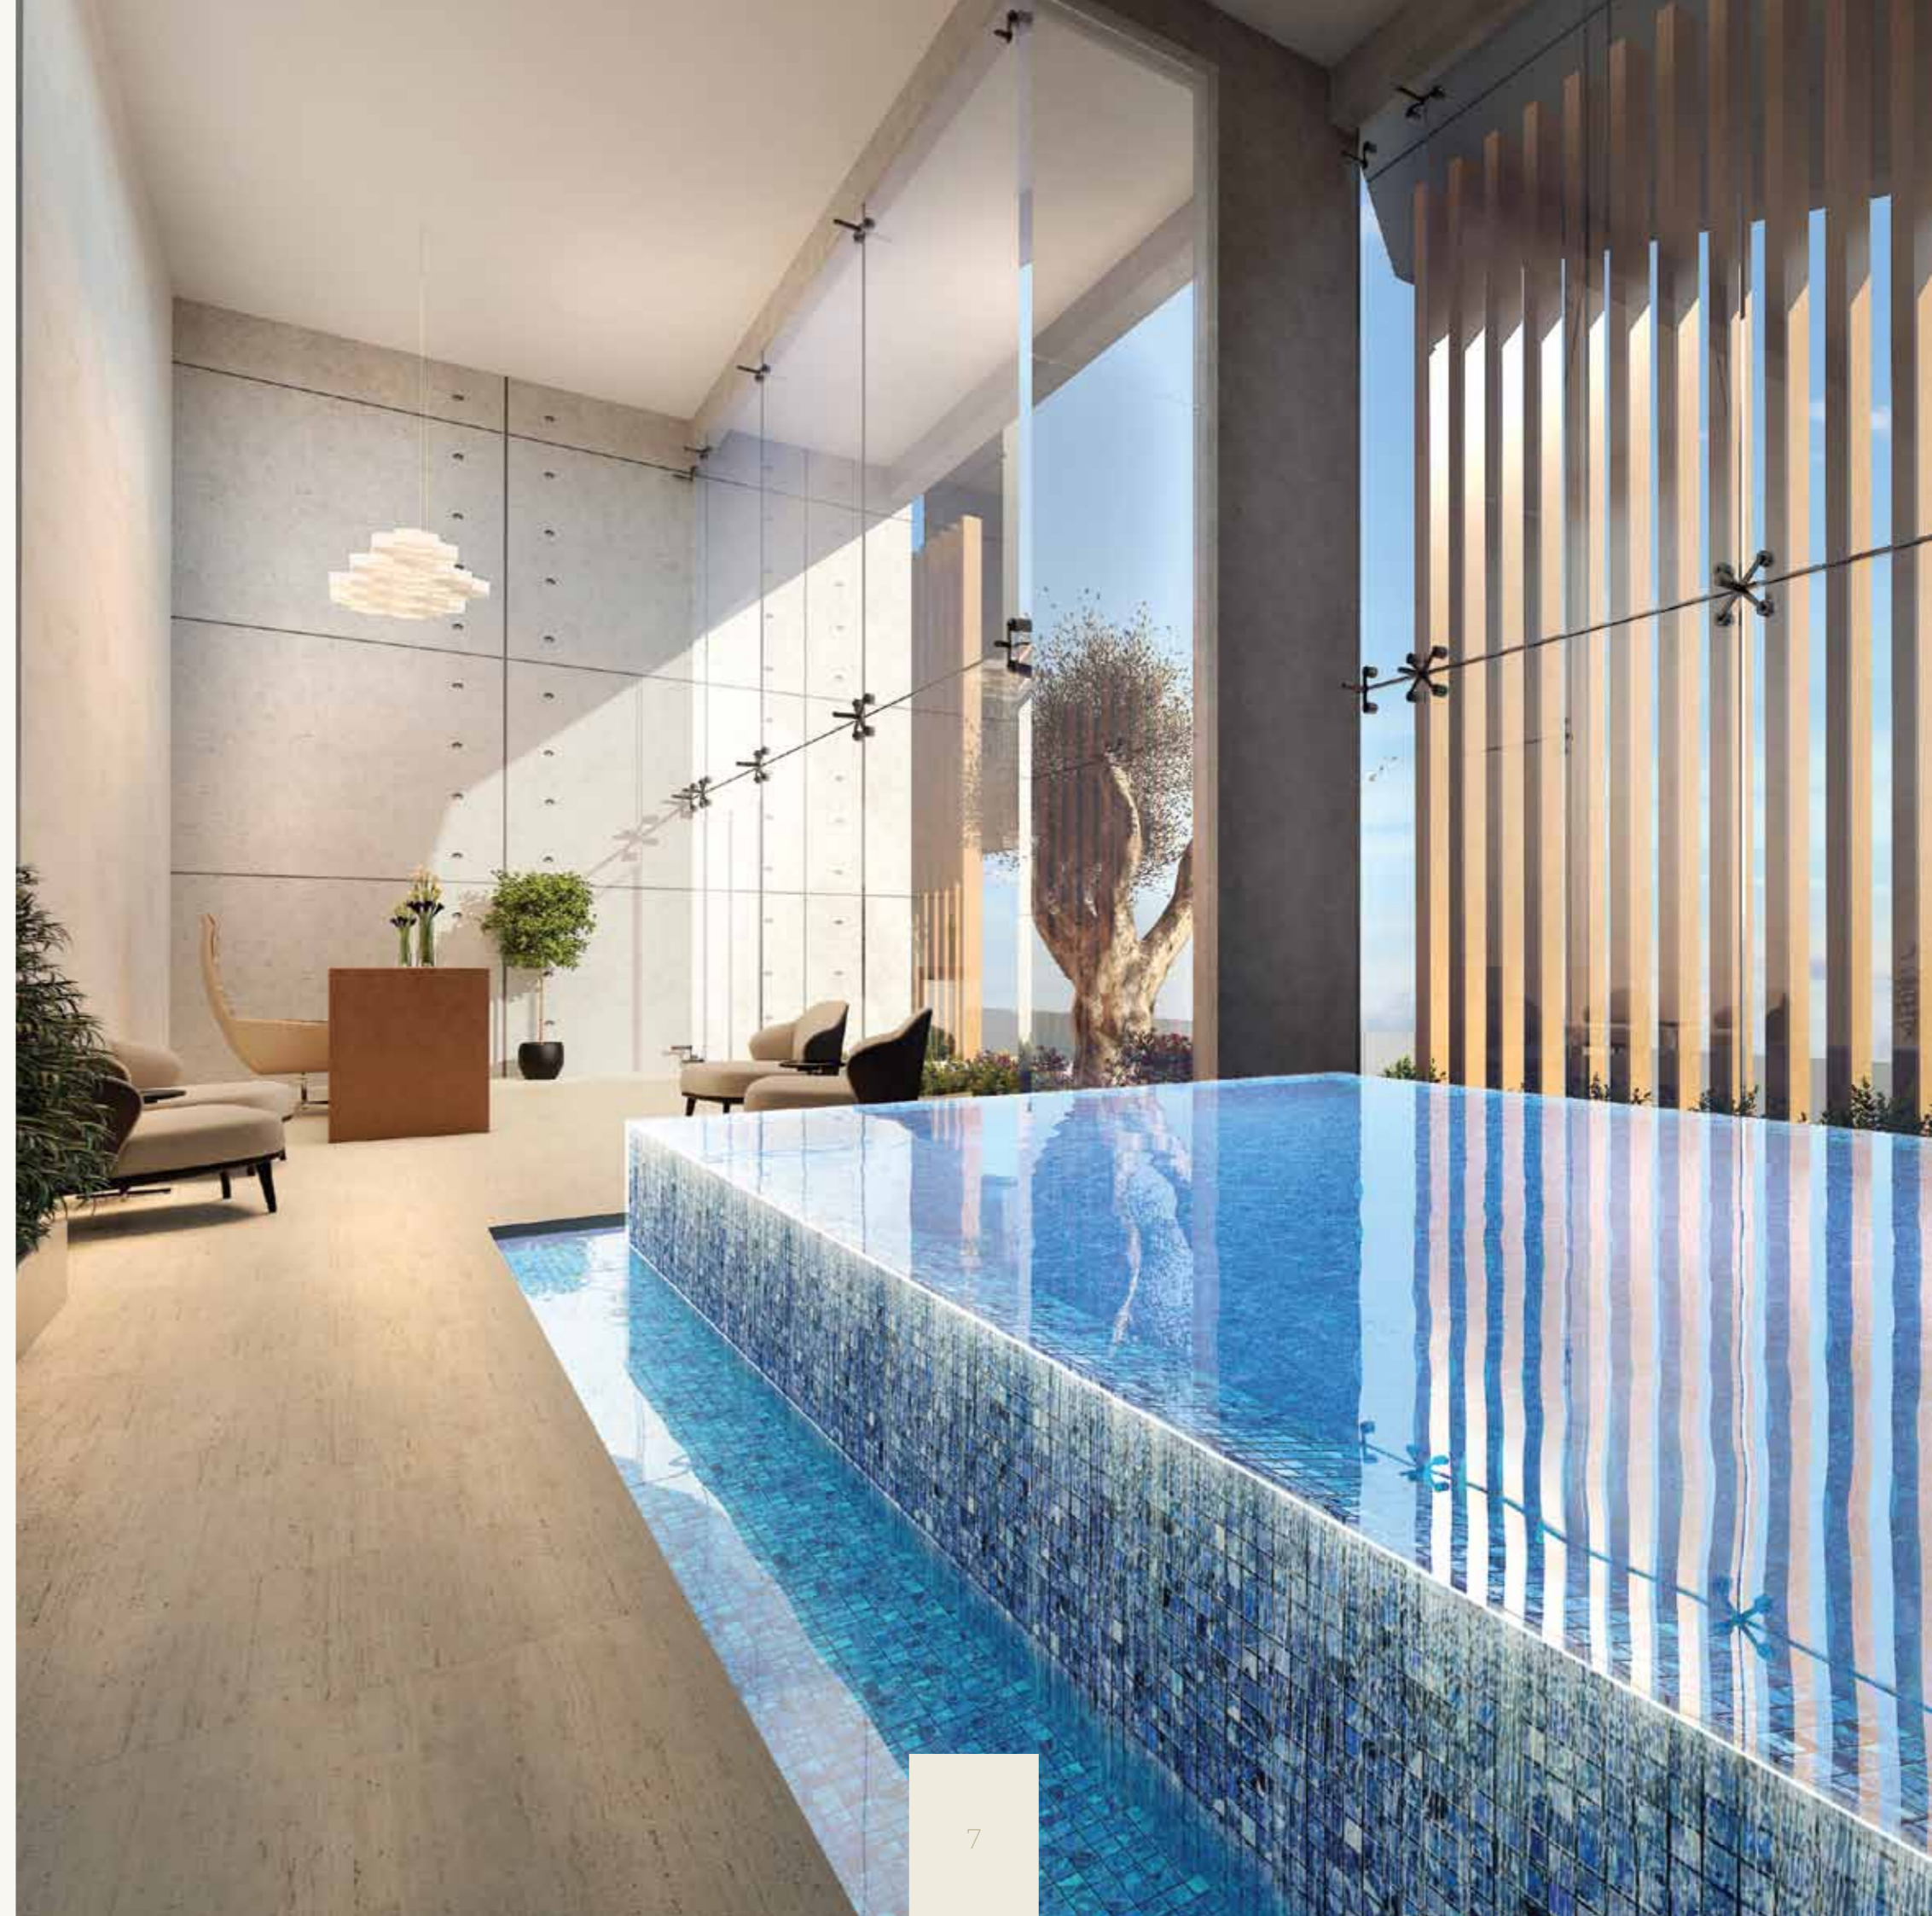

FOR A BETTER
LIVING

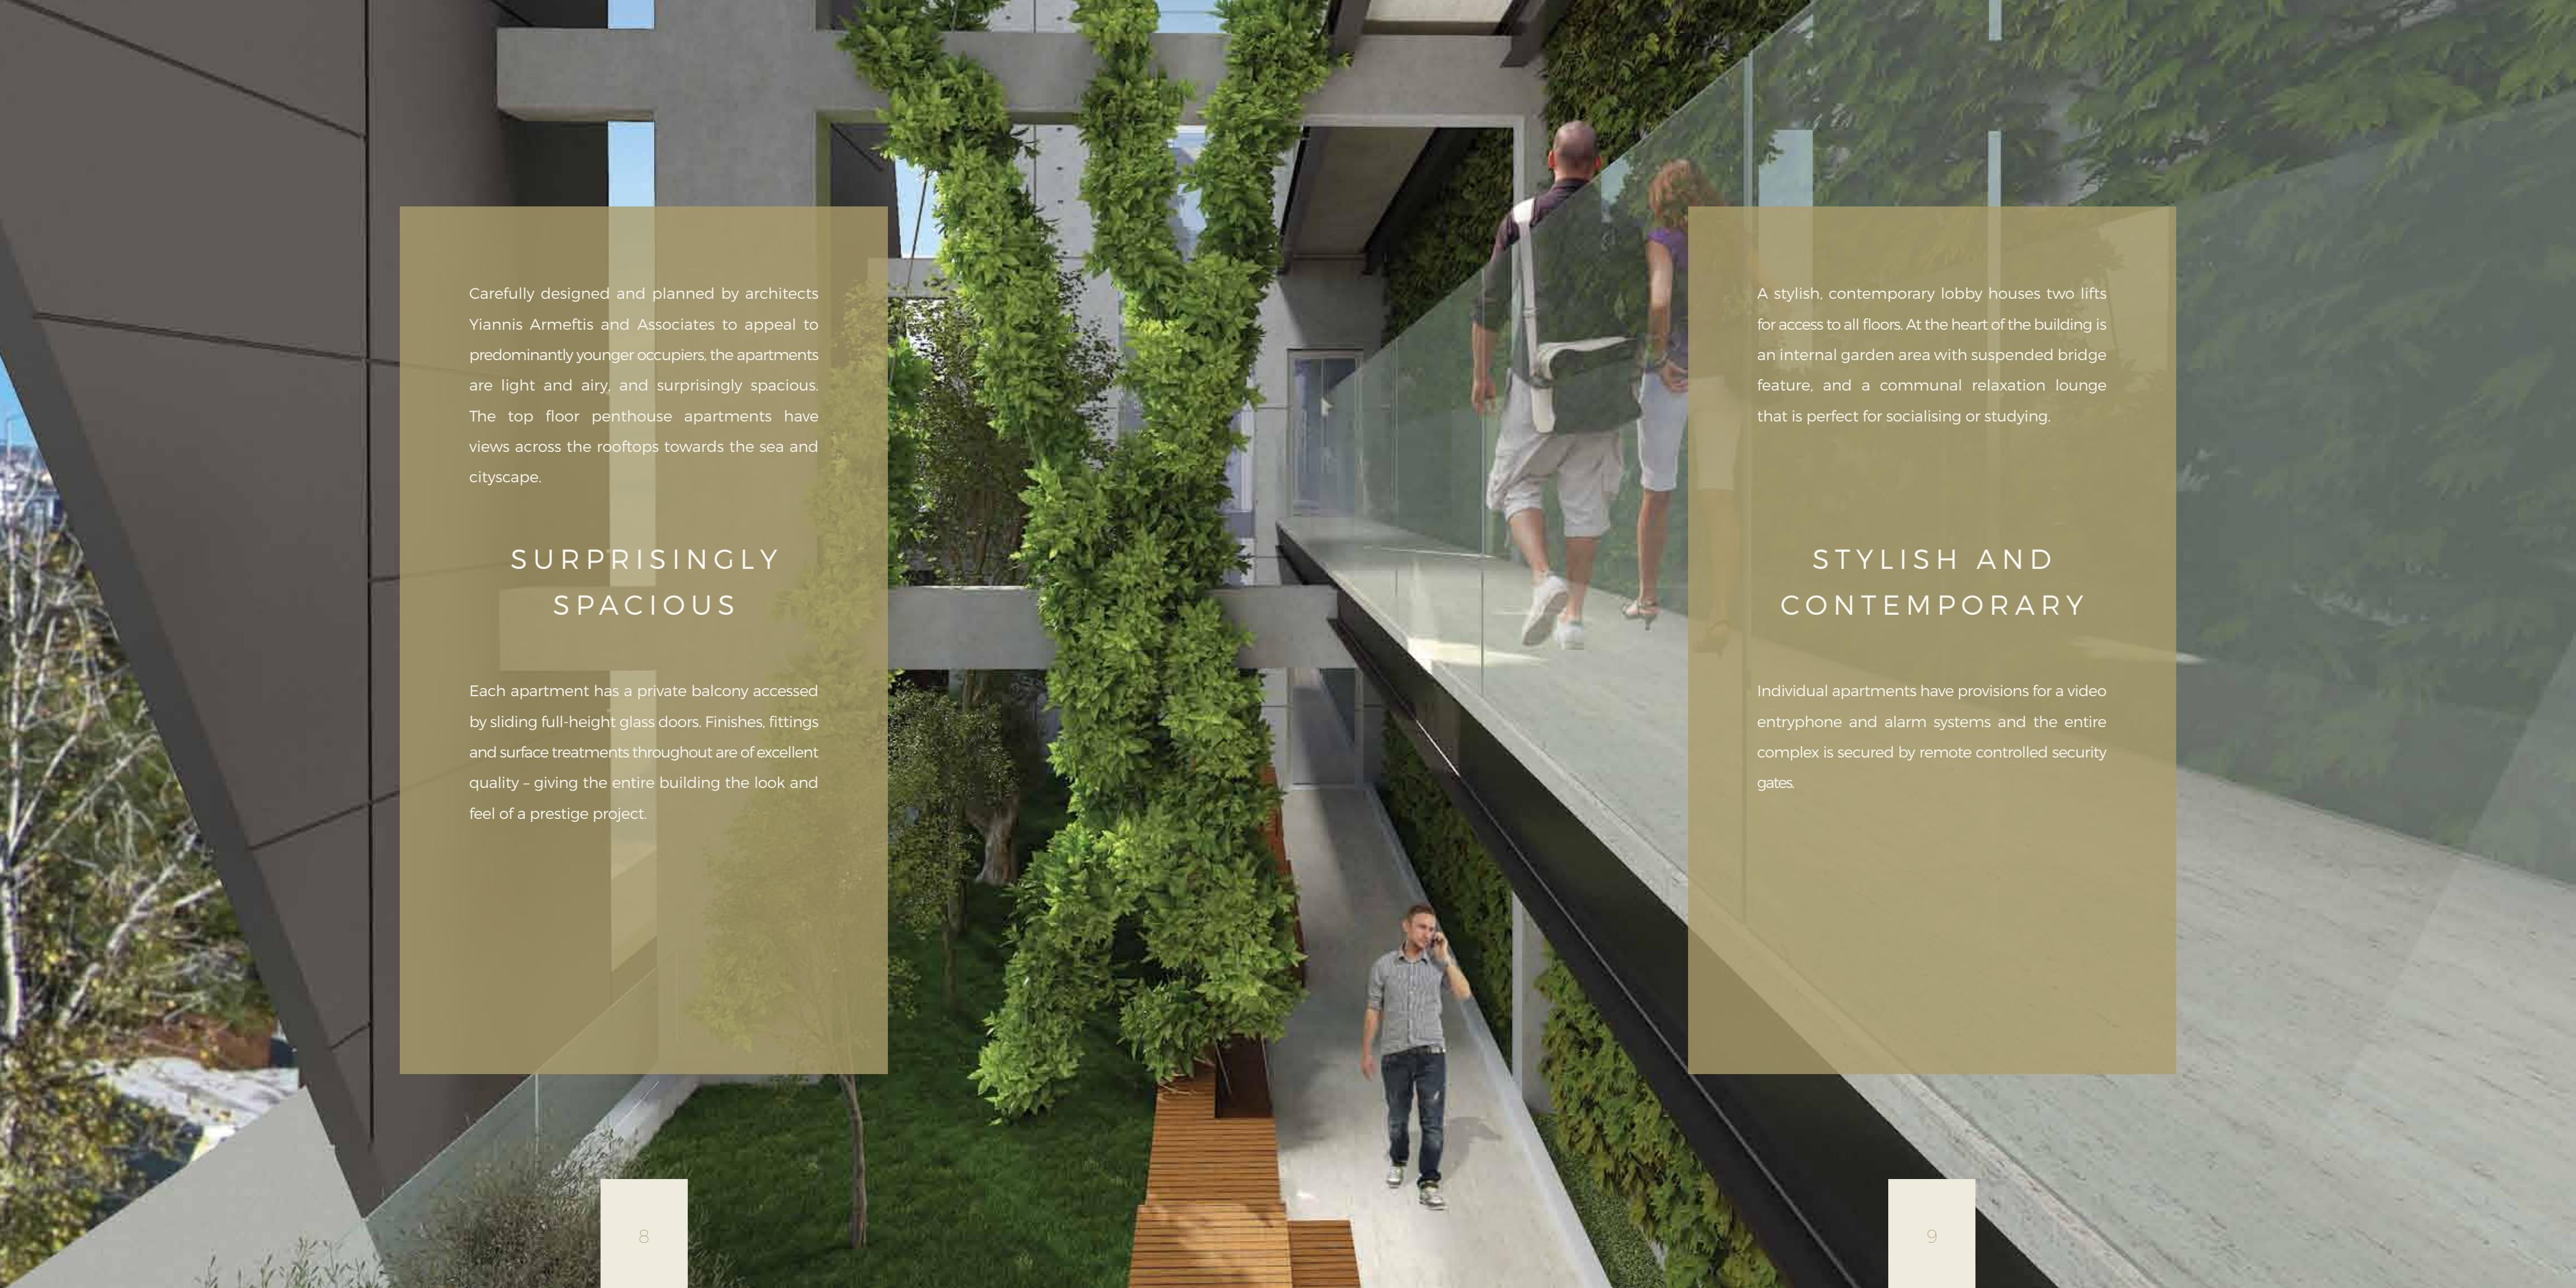

Conceived as project that will appeal to students and young business professionals, there are 18 single-bedroom apartments and two, two-bedroom top floor penthouse apartments. Striking modern styling, excellent configuration, and top-class build quality makes the building both visually attractive and highly desirable as a home base for its targeted occupiers.

CENTER OF THE TOWN

Limassol is the second biggest city in Cyprus, and this neighbourhood is where young professionals – and students – want to call home. Whether they are looking for convenient, secure quality accommodation, a thrilling social scene or a quiet, eclectic vibe, this is the answer.

Whether it's the sports, food, arts or theatre scene, there are enough pastimes and entertainment to fulfil every need. Combine that with easy transportation, an unmatched business and financial hub, and a year-round tourist industry, it's no coincidence that more and more young professionals are looking for accommodation in Limassol.

Carefully designed and planned by architects Yiannis Armeftis and Associates to appeal to predominantly younger occupiers, the apartments are light and airy, and surprisingly spacious. The top floor penthouse apartments have views across the rooftops towards the sea and cityscape.

SURPRISINGLY SPACIOUS

Each apartment has a private balcony accessed by sliding full-height glass doors. Finishes, fittings and surface treatments throughout are of excellent quality – giving the entire building the look and feel of a prestige project.

A stylish, contemporary lobby houses two lifts for access to all floors. At the heart of the building is an internal garden area with suspended bridge feature, and a communal relaxation lounge that is perfect for socialising or studying.

STYLISH AND CONTEMPORARY

Individual apartments have provisions for a video entryphone and alarm systems and the entire complex is secured by remote controlled security gates.

WHERE THE HEART OF THE TOWN BEATS

Limassol is an excellent city in which to buy investment property that will offer significant profits. And one of the many positive aspects of investing here is that it is a city which thrives on young people – be they students or young business professionals.

A HOME IN THE CITY CENTER

In Limassol there is a large population of renters. New students enter university, and new graduates or job-seekers gravitate to the city seeking opportunities to enter the workplace – and they all need a place to call home.

The high demand for rental apartments invariably leads to fewer vacancies. There is always the next student or employee looking for a home. Time spent marketing apartments for rent is almost zero, because the area sells itself. There are many attractive amenities and opportunities which draw people to Limassol.
